

# 2022 HIGHLIGHTS

Featuring the Flute™ Collection

PROS USE

PEERLESS<sup>®</sup>

# WHEN THE SPECS CALL FOR COMMON SENSE.

Sure, style matters. But so does substance.  
And at the end of the day, you need to stay  
on budget, too. It's a tricky balancing act.  
But when Peerless® faucets are specified,  
you'll be just fine.

## OUR JOB: PLEASE AN IMPOSSIBLE -TO-PLEASE TARGET.

Architects. Plumbers. Designers. Some would call them hard to please. But at Peerless®, we prefer to think of them as professionals who know exactly what they want.

So that's what we build.

For nearly 50 years now, we've been creating things that look good, function well, and don't cost more than they should. That's why Peerless is the go-to brand for industry professionals.

Over the years, Peerless® has built more than plumbing fixtures—we've built trust with the people who do this stuff for a living. Today, we're excited to show you a few highlights from our collection.

**PROS USE  
PEERLESS®**

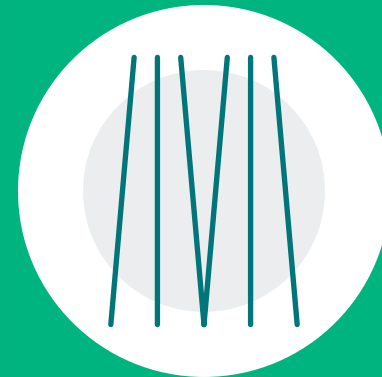

FORM AND FUNCTION. TIED FOR FIRST.

Because we believe style and value are equally important, we're compelled to think differently. It's never enough for our products to merely look good. They must work well, too.

Everything we create is designed to make life better for the people who count on us. Let's take a look at some features that make Peerless® the smart choice.

DESIGN AS FUNCTION

## POWERinse™ Technology

Models equipped with POWERinse technology allow you to choose the mode that's right for you: stream, spray—or for when you need an extra blast of cleaning power—POWERinse technology.

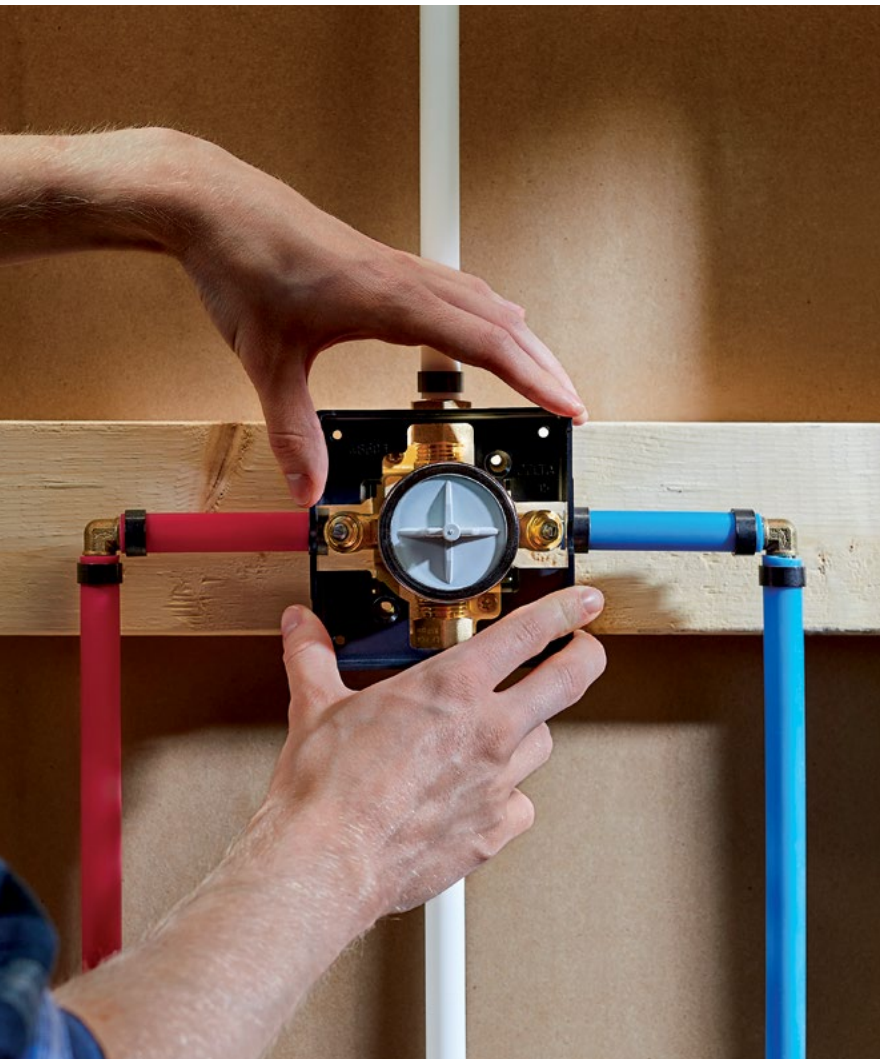

DESIGN AS FUNCTION

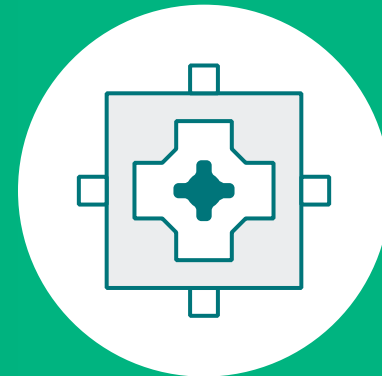

## Twist Aerator

When budget is key, our Twist Aerator models offer a great alternative to a traditional pull-down sprayer.

A simple twist unleashes a blast of water to help with cleaning chores.

DESIGN AS FUNCTION

## MultiChoice® Universal Valve

Future-proof your shower. MultiChoice valves give you the freedom to change trim styles and valve function down the road—without altering plumbing behind the wall.

TWO COLLECTIONS. ONE MINDSET.

FLUTE™ COLLECTION

Meet our two newest offerings, Flute Collection and Precept® Collection. Even though they're separate product lines, they were both inspired by the trend of clean, minimalist design. That means you can use them interchangeably throughout your projects.

PRECEPT COLLECTION

SMOOTH. CYLINDRICAL. SIMPLE.

FLUTE™

COLLECTION HIGHLIGHTS

Smooth curves. Clean, cylindrical design. Simple elegance. Our Flute Collection features everything fans of modern design crave. Available in a range of kitchen and bathroom models, the Flute lineup was designed to pair with our popular Precept® Tub and Shower products.

# PRECEPT<sup>®</sup>

COLLECTION HIGHLIGHTS

Why did we completely overhaul an already-popular family of faucets? Because that's what you do when you're infatuated with design. The heart of the reimagined Precept Collection is a high-arching kitchen faucet inspired by commercial food-prep settings.
